

With new_paragraph we can start a paragraph with the first sentence in bold. Use add_text to add text without bold to the paragraph. *Use add_text to add text in italic to the paragraph.* ***Use add_text to add text in bold and italic.***

With new_paragraph we can start a second paragraph with the first sentence in italic. Use add_text to add text without italic to the second paragraph. **Use add_text to add text in bold to the second paragraph.** ***Use add_text to add text in italic and bold to the second paragraph.***

(As this example does not have a heading the generated markdown file will not have a heading. If markdownlint is used on the generated markdown file it will report an error for the missing heading.)
