

Nested numbered list example

1. This is the first numbered item. If we do not specify the level, it is at the same level as the previous item - and when there is no previous item, it is at level 1.
2. This is the second numbered item.
 - 2.1. This is the third numbered item. This is the first item at level 2.
 - 2.2. Another item at level 2.
 - 2.2.1. And an item at level 3.
3. The final item is back at level 1.
