

URL in heading example

A heading with a URL: [This URL link to the examples.](#)

A heading with a bold URL: [This bold URL link to the example source code.](#)

A heading with an italic URL: [This italic URL link to the examples result.](#)

And with an italic and bold URL: [This italic and bold URL link to the examples.](#)

The `add_url` function can be used to add a URL to a heading, as well as to paragraphs, bullet lists, and numbered point lists.
